COMMENTS TO THE FINANCIAL STATEMENTS

Financial statement balances at December 31, 1996, are commented upon only if financial changes, recommendations, or special explanations are considered necessary.

Bonds

\$1,524,856

The admitted value of bonds was determined by this examination to be \$1,524,856, the same amount as reported by the Company in its 1996 Annual Statement. The bonds are held by the First National Bank of North Dakota under a custodial agreement. All of the bonds are U.S. Treasury Notes.

The custodial agreement does not contain the following safeguards as required by the NAIC Examiners Handbook:

1. Custodian will indemnify the insurance company for any loss caused by negligence or dishonesty of the bank or trust company while securities are in its custody; and
2. The securities will be promptly replaced if there is a loss for which the bank or trust company is obligated to indemnify the insurance company.

It is recommended that the Company amend its custodial agreement to include the safeguards required by the NAIC.

The *NAIC's Accounting Practices and Procedures Manual for Property Casualty Companies* require insurers to value bonds at cost and amortize them under the valuation standards of the NAIC. This examination noted that the Company was not amortizing the discount on the bonds. **It is recommended that the Company amortize the discount on bonds.**

Interest due on bonds represents certain amounts of income which are legally owed to the Company as of the statement date but have not yet been received. This examination noted that the Company was not accruing interest due on the bonds. **It is recommended that the Company accrue for interest on the bonds.**

The admitted value of bonds owned by the Company at December 31, 1996, represents 85 percent of the Company's admitted assets. All of the Company's bonds were rated as investment grade. The book value, market value, cost, and par value of the bond portfolio are as follows at December 31, 1996:

Statement Value	NAIC Market Value	Actual Cost	Par Value
\$1,524,856	\$1,536,718	\$1,524,856	\$1,545,000

Premiums in Course of Collection

\$106

This asset has been decreased by \$6,593 from \$6,699 to \$106. The Company treated premiums over 90 days past due as an admitted asset. The *NAIC's Accounting Practices and Procedures Manual for Property & Casualty Companies* states that premiums over 90 days past due are a nonadmitted asset. **It is recommended that premiums over 90 days past due be classified as a nonadmitted asset.**

CONCLUSION

The financial condition of the Company, as of December 31, 1996, as determined by this examination is summarized as follows:

Admitted Assets		<u>\$ 1,781,278</u>
Total Liabilities	\$ 1,415,131	
Surplus as Regards Policyholders	<u>366,147</u>	
Liabilities, Surplus, and Other Funds		<u>\$ 1,781,278</u>

The courteous cooperation extended by the officers of the Company during the course of the examination is gratefully acknowledged.

Respectfully submitted,

Diane Shervey, AFE
North Dakota Insurance Department

SUBSEQUENT EVENTS

In 1997, the member subscribers formed a separate risk purchase group under N.D.C.C. Chapter 26.1-46 and purchased their professional and general liability insurance through a newly formed limited liability company. Therefore, at January 1, 1997, the company is in an inactive state.
